

# **Computing Acceptable Use Agreement**

## **Widget Version**

School rules that help us use computers, tablets and the internet safely.

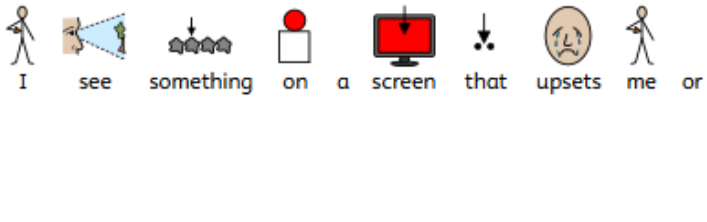

I always ask a teacher or trusted adult before I use computers or tablets.

I only open games, websites, or activities that an adult has told me I can use.

I tell an adult straight away if I see something on a screen that upsets me or that I don't understand.

I keep my passwords safe and never use anyone else's.

I never share personal information like my address, birthday, school name, or phone number.

I only write or send things that are kind and respectful.

If I am not sure what to do, I will stop and ask a teacher or another trusted adult for help.

  
 help.
