

English

This half term, children will revisit key **basic skills**, focusing on clear **sentence structure** and confidently identifying **nouns** and **verbs** in their writing. They will practise building accurate, well-punctuated sentences across different tasks. Later in the term, pupils will produce a **non-chronological report** linked to our History learning on the **Ancient Egyptians**, organising factual information clearly

History

Children will explore key aspects of Ancient Egyptian life, learning about powerful pharaohs, important gods, and how hieroglyphics were used for communication. They will study major events through timelines to understand how Egyptian civilisation developed over thousands of years.

RE

We will explore **Christian beliefs** about what truly matters: loving God, caring for others, , and living out values such as **kindness**.

What are we learning

about this half term?

Computing

This half term, pupils will learn how to create clear, engaging **digital presentations**. They will practise adding text, images and transitions and developing confidence using software.

PE

In P.E. we will develop teamwork, movement and control while playing simple **invasion games**.

Maths

This half term, we will deepen our understanding of **place value**, working confidently with numbers up to six digits. We will read, write and compare numbers, partition them in different ways, and use number lines to understand size.

We will apply these skills to a range of problems, explaining reasoning clearly and choosing the most efficient method.

Science

This unit teaches children about electrical circuits, including how power sources, wires and components work. Pupils explore switches, bulbs and safety, building simple circuits to understand how electricity flows and powers everyday objects.

Art / Music

We will learn how to make **sculptures**, exploring how artists use shape, texture and form.
