

English

As writers, we will be focusing on our basic skills of handwriting and word writing using our phonics knowledge. We will be labelling and writing captions to transition from Reception. Most children will then begin our grammar unit, focusing on nouns, verbs and constructing a sentence.

History

As historians, we will look at changes within living memory – showing aspects of change in national life. How have toys changed over the decades? How have homes changed over the years? How have clothes changed from the past?

Computing

We will be learning about staying safe online.

Year 1

What are we learning
about this half term?

Science

As scientists, we will be looking at different materials and their properties and group them based on their properties.

RE

In RE, we will be learning about what Christians believe God is like and how they live their lives according to the teachings of the Bible.

Maths

As mathematicians, we will match numbers with apparatus and drawings to 10. We will be comparing numbers to 10 using the language of less than, greater than and equal to. We will be reading, writing and ordering numbers. We will also begin using the + - = symbols to add and subtract to 10 using practical, mental and written methods.

PE

In PE, we will be focusing on our fundamental movement skills and developing our agility, balance and co-ordination (ABCs) through games.

Music

As musicians, we will learn the differences between pulse, rhythm and pitch and learn how to rap, as well as learn to sing and play the tune 'Hey You'.
