

Y1 History Home Learning Challenge.

Please look at the list below and select one activity that your child would like to do at home (or choose something else based on our unit). **We would love it if you could support your child in completing this project but please ensure they have overall responsibility for whatever they produce.**

- Research a 1950s toy you would like to play with and compare it to your favourite toy now.
- Draw and label appliances in a 1950s home.
- Look at changes in clothing since 1950s. Talk to family and ask if they have any photos! Tell us what you found out.

Please note that final submission for this home learning challenge is **Tuesday 24th October 2023** where all children will be given the opportunity to share their learning with the whole class.
